Handrail (Mipolam[®])

Not every handrail is a Trocal handrail! Please ensure that the trade name is on the outside of the lip. Dynamit Nobel A. G., pioneers in most fields of Plastics production, guarantees the quality of its product which has been

in use for decades. Architects and developers prefer Trocal handrail because of its stability in shape and colour. Fixers and contractors value its good handling quality. Trocal

handrail is a quality product by Dynamit Nobel A. G. with world-wide references. It is supplied in rolls of 82 ft. and 164 ft. in 8 standard colours and 9 sizes.
